THE BARQUE GREAT WEST. The barque Great West which was wrecked last fall at Skeping Bear Bay, has finally been got off, and was towed down the river yesterday, by the tag Oswego, on her way to Cleveland, where she will undergo repairs. It will be remembered that the Great West together with the schooner Kyle Spanger, went ashore in Skeping Bear Bay, during the terrible storm in November last, and were both abandoned to the Underwiters. Some time since Capt. R. Pill, of Buffale, constraints.

The Court of Common Pleas is now in season in Mahoning county, Judge Potter presiding. There is no business of general intrest before it; and but little of importance to any

one mye the lawyers engaged.

The Court of Common Pleas for Trumbul has been detained altogether two days by the fogs on this trip. A very great deal of rain has fallen in the upper country.

The Northern Light met the Schooner Ballard in the Saultriver, bound up; three vessels were lying at Marquette leading with iron, and two bound down had just left. The propeller Indiana strived in the Schooner Ballard in the Saultriver, bound up; three vessels were lying at Marquette leading with iron, and two bound down had just left. The propeller Indiana strived at Marquette as the Northern Lightleft. A nuncher of vessels were met in Lake Superior bound up. The Illinois was at the Sault, and the Iron City in the Sault River—both bound up.

The following is a detail of the cargo of the Northern Light impossible to the cargo of the Superior control of the Superior as the Court is concerned at the coming term.

The question has a beginning—as most questions of the kind have had before it—in the over anxiety of certain self-important officials to do something grander, more important and effi-cient than what had ever been done by those who had preceded them. Aft r our present Mayor came into office last year, a committee was appointed to codify our laws, in heene mu-tation of larger municipalities. A layman was not supposed capable of doing such a work, and a lawyer was selected—a sort of protego of the Mayor, the gentleman whom "Outsider" desig-nated as the man with the "Napoleonic head." hauled, new ones concocted by the score, be cause the old ones were found wofally inefficause the out ones were bound wording instin-cient, and finally a grand repealing ordinance was passed, which occupied two columns or thereabouts, of our village papers, which swept away at one fell swoop the entire rubbish which emanated from the best brains of our City Fathers for twenty-three years, and so city Fathers for twenty-three years, and as impetuous was the avalanche that many ordinances were repealed that should not have been, such as ordinances levying taxes, laying out streets, &c. After the whole had been completed, the volume was printed at a large expense, and now we have printed laws and are dignified by the title of City. One of these wise laws was called an "Ordinance to facilitate the collection of fines," and it provides that when a fine is assessmed the Mayor shall on black walcul lumber. She will take on there as much as she can carry over the bar at the mouth of the river, and will then fill up with staves at this port or New Baltimore. These two vessels are the last of Capt. Plerce's Liverpool fleet.—Detroit Tribuse. Saturday.
